

Chapter 4

TAV Tutorial

4.1 Introduction

The TAV tutorial is on the TAV disks included with the TAV application and is installed automatically when TAV is installed. This tutorial takes the user through each of the five data areas of TAV and illustrates how to access data.

4.2 Installation

If you did a complete installation of the TAV application, as described in Chapter 1, then you will already have the TAV tutorial installed.

4.3 Using the Tutorial

From the Windows Program Manager, open the TAV program group. Locate the TAV Computer Based Training icon. Place the cursor over the icon and double click.

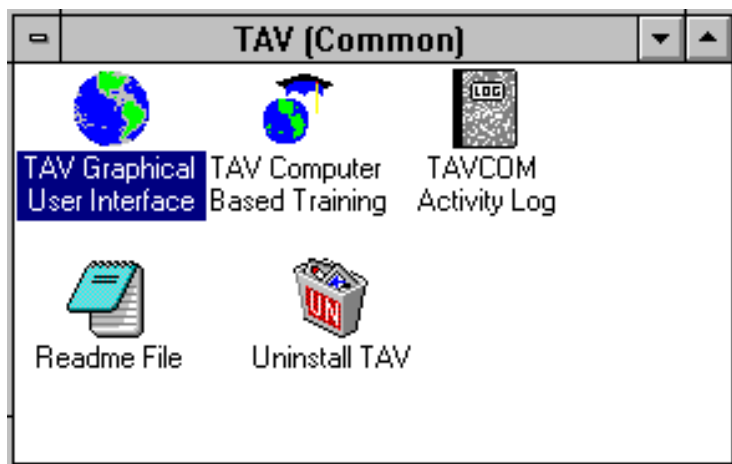

Figure 4.3-1

4.4 Help

The help screen describes the control buttons used in the Tutorial. The help screen can be viewed by pressing the “?” button. The “?” button is located at the lower right of the screen.

4.5 Glossary

The glossary, viewed by pressing the  button, provides definition for all terms and acronyms used in the TAV Graphical User Interface. The  button is located at the lower right of the screen.

4.6 Data Matrix

The Data Matrix provides the source of TAV data by class of supply (SC). To move to the next SC, click the advance arrow. Scroll through the information for each SC using the scroll bar.

4.7 Exiting the Tutorial

Click the “Quit” button to exit the Tutorial.
